NEW SPRING MERCHANDISE.

Yesterday we announced first showing of THE WILLIAM ANDERSON SCOTCH GINGHAMS.

Scotch Dimities, and to-day we have added to this important showing beautiful new cotton Voiles, Poplins and other new washable fabrics in large quantities.

We Announce.

Beginning To-morrow, Friday, Feb. 7th.

two of the most attractive and we believe most important special sales it has ever been our good fortune to mention.

The Celebrated "Home Made" Muslin Underwear at 33 1-3 per cent. less than the value and

1,700 Yards Fine French Dress Silks at 50 Cents Per Yard.

The "Home Made" Undermuslins have been a strong and leading article here for many years and at full price ladies have learned that more perfectly made or more satisfactory garments in all respects are exceedingly difficult to obtain All that one needs to know to be assured of highest quality is that it's a Home made garment.

At 33 1-3 per cent. less than the real value or regular selling prices we are offering an opportunity for real saving that cannot be overlooked.

It will be an unprecedented offering in every way in which it can be regarded.

The importance of this sale is expected to be so far reaching that we have decided to give the entire section usually occupied by black dress goods to the display of these garments. A large force of efficient salespeople will be in attendance.

The offering consists of nearly 2,000 entirely new, fresh and beautiful garments, the manufacturers surplus stock and office sample collection, gowns, corset covers, skirts, combinations, etc. Sizes 34, 36 and 38 only.

Garments worth 75 cents will be priced 50 cents Garments worth \$2.00 will be priced \$1.34

This same proportionate reduction will apply all through the line up to garments worth \$12.00 each.

Sale opens to-morrow morning, Friday, Feb 7th.

Just across the aisle we shall hold the season's most remarkable sale of

Fine French Dress Silks at 50 Cents Per Yard.

New "Como" Silks at Half Price.

1.700 yards of imported silks to be sold at one-half their value in a special sale which we believe to be one of the most important of its kind that we have ever held. "Como" satin. a new weave that is brilliant, beautiful and serviceable in the extreme. Actually worth \$1.00 a yard, they will be sold at

COLORS OF STRIKING BEAUTY.

Made in Lyons, France, the remainder of the Fall stock of leading importer. 19 inches wide and colored with inimitable French dyes, which Americans, for some reason, seem unable to equal. The shades, some 25 in number, include the popular light hues and the staple dark colors. Among them are changeable effects of striking beauty. Early choice is advisable, for in some colors the quantity is limited.

GUARANTEED FOR SERVICE.

Delicate and distinctive, these silks mark the wearer, always and everywhere, as a judge and devotee of quality. They are suitable alike for afternoon, semi-dress or party wear, separate waists, house or evening gowns. So convinced are we of their worth that we stand behind them absolutely, guaranteeing satisfactory wear in any service for which silks are ordinarily adapted.

THEIR WORTH APPARENT.

But to the average person our guarantee is unnecessary. It is enough to feel the fine, firm weave of these silks, see the rich. expert coloring and catch the shimmering play of light in the changeable hues to be convinced of their worth.

THIS OPPORTUNITY UNUSUAL.

Opportunities to buy silks of the first grade at a sweeping sacrifice are rare. This opportunity came to us and now we turn it over to our patrons, giving them full advantage of the

50 cents per yard for these beautiful French "Como" satins that are absolutely worth \$1.00.

Sale opens to-morrow morning.
